

Change your **business.** Change your **life.**

Whether you're an entrepreneur, agency owner, or project manager, Vorex's cloud-based business management platform frees up time and resources to enable you to focus on the things most important to you – moving your business forward while freeing up your time.

A Simple Solution to Simplify Your Business

Vorex's business management platform provides a simplified snapshot of your day-to-day business operations and overall profitability. The end result? Remaining a step ahead of your competition.

INTUITIVE

With a simple, intuitive user-friendly interface, you can begin leveraging the benefits of Vorex within minutes of signing up.

CLOUD-BASED

Get instant access to your business' most essential information – invoices, project timelines, time tracking and more – from your laptop, mobile device or tablet, wherever the work day takes you.

IMPROVED EFFICIENCY

Vorex integrates and consolidates multiple business management workflow tools in a single, centralized platform, enabling you to get a quick snapshot of your business at any time.

COST-EFFECTIVE

Vorex offers an enterprise-level business management platform without the enterprise level price tag. With three different packages to choose from, there's a comprehensive and powerful solution for every budget.

Technology that affects change – in your business and your life.

Vorex's cloud-based business management platform provides all the tools, tricks and power of a platform to run your business, including project management, accounting, time-tracking, invoicing, billing, help desk, ticketing, CRM, professional services automation (PSA) and more.

PROJECT MANAGEMENT

Vorex provides real-time access to project statuses to keep you in the know and eliminate the exhausting task of chasing down update after update from team members.

TIME & EXPENSE TRACKING

Instantly see the time and expenses associated with any given project. Track time across teams, projects and individual employees for real-time profitability and resource allocation insight.

BILLING & INVOICING

Eliminate the confusion that often surrounds the billing process with integrated time tracking and invoicing. Vorex creates automated invoices without having to calculate costs and even connects with leading accounting solutions.

HELP DESK & TICKETING

Vorex enables you to better track service tickets until customer issues are resolved and capture more billable revenue through improved billing per customer service contracts. The result? Improved customer service and greater profitability.

CRM

Keep accurate records of your entire sales pipeline with Vorex's integrated customer relationship management (CRM) functionality to keep your business moving forward.
